## Job Overview

ZutaCore, a leading global company, seeks a passionate and detail-oriented Quality Assurance Manager to lead our quality assurance and regulatory affairs function. In this critical role, you will drive organizational excellence by ensuring the highest quality standards in our products and strict adherence to our customer's and partners' requirements and regulatory requirements.

## Responsibilities

- Provide strategic leadership for the quality assurance and regulatory affairs function, fostering a culture of continuous improvement.
- Oversee the upkeep and improvement of our ISO 9001-compliant Quality Management System, ensuring its effectiveness in meeting quality objectives.
- Lead all the system verification and validation activities that are required to release the system for production.
- Design and define testing methods, including acceleration and long-term reliability tests.
- Develop and execute QA manual & automation s test scripts using industry-standard tools.
- Conduct regression, performance, and functional tests on NPI products.
- Oversee customer complaints, non-conformance, and corrective action processes, ensuring timely and effective resolution.
- Lead the preparation, coordination, and management of internal and external inspections and audits.
- Stay current on evolving government and industry quality standards, ensuring compliance with all relevant regulations.

## Qualifications

- BSc degree in System, mechanical, material Engineering, or a related field.
- Minimum 5-7 years of experience in a Quality Assurance or Regulatory Affairs role within a manufacturing

Office: 972-52-7504010 / Fax: 972-8-9338820 / [www.zutacore.com](http://www.zutacore.com)  
5 Tamar St., Sapirim Industrial Park, Shaar Hanegev, Hof Ashkelon 7916700, Israel

or related environment.

- Proven experience in implementing and maintaining an ISO 9001 Quality Management System.
- Strong understanding of quality control principles, statistical process control (SPC), and quality improvement methodologies (Six Sigma, Lean Manufacturing, etc.).
- Excellent leadership, communication, and interpersonal skills with the ability to motivate and collaborate across teams.
- Demonstrated ability to manage and prioritize multiple tasks effectively in a fast-paced environment.
- Meticulous attention to detail and a commitment to quality.
- Proficient in Microsoft Office Suite (Word, Excel, PowerPoint).
- Proficient in Priority ERP – Advantage.
- Fluency in English; additional language skills a plus.
